Thank you, Marcelo and Julie.

The videos are really helpful, for seeing the great work you guys are doing. Regarding permission to use her videos, we will check back in with you when EPA HQ starts working on its press release. I don't expect this to be until around sometime in July/August.

Best,

Erica

Thanks Julie.

Thank you Erica,

Yes, May 22nd would work for us to have the work plan and budget in the format requested.

I'll ask Ann Kitajima about the application for this year, it may be the same application as last year if it doesn't have changes.

Marcelo

Hi Erica,

I do communications for SMBNEP, and Marcelo and I spoke. The video Marcelo sent you is great about our org overall (The Bay Foundation), but thought I'd also give you this one (<https://www.youtube.com/watch?v=68-e5r6yl24>) which relates to our major Kelp success story. It's much more project-specific, but we weren't sure which way you'd want to go. So that is a 2nd choice for you.

Very best,

Julie Du Brow

Communications Director

Hi Marcelo,

Thanks for getting back to me and for your responses.

I don't have the grants.gov link, but I was told that Ann Kitajima 805-772-3834 x14 @ Morro Bay NEP has it.

Since we are still working out changes to the budget table and work plan formats, can we plan on having you submit it through grants.gov by May 22?

Thanks for including a link to the PSA. We've asked HQ to check in with you before using any material in a press release.

I look forward to talking to you on the phone and eventually meeting you in person.

Best,

Erica

Dear Erica,

I just left you a voice message. Regarding the video that may be used at headquarters, I am providing a youtube link below. Let us know if it is not useful.

Regarding the application, we have most of the elements to prepare and submit the application, but the application itself is not available through the grants.gov website yet. So, if you have a copy of it, please send it to us.

We could have a final version of the application late this week/early next week, after Tom has a chance to review it.

<https://youtu.be/rd0jlzFeXiw>

We're looking forward to working with you as our new program officer and hope to see you in the near future!
